FRDM-MCXA266 are compact and scalable development boards for rapid prototyping of MCX A175, A176, A185, A186, A255, A256, A265 and A266 MCUs. They offer industry standard headers for easy access to the MCU's I/Os, integrated open-standard serial interfaces, external flash memory and an on-board MCU-Link debugger. Additional tools like our Expansion Board Hub for add-on boards and the Application Code Hub for software examples are available through the MCUXpresso Developer Experience.
