NXP Modular Drone Platform

MODULAR-DRONE-PLATFORM NEW

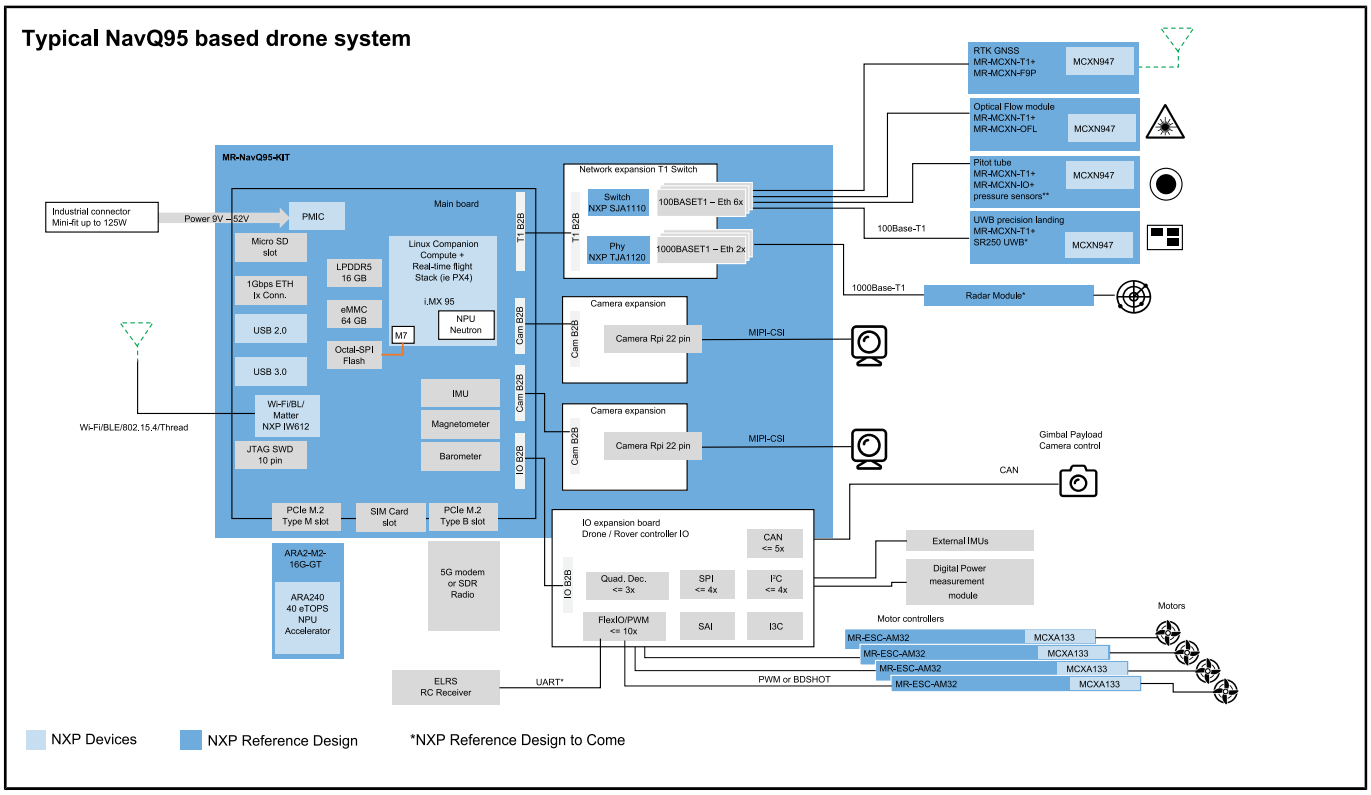

Preproduction

本ページには、試作段階の製品に関する情報が含まれています。記載されている仕様および情報は、予告なく変更される場合があります。詳細については、担当営業までお問い合わせください。

Last Updated: Nov 6, 2026

The NXP Modular Drone Platform is a set of open, interoperable reference designs for autonomous drone development that combines AI computing, flight control, networking, and propulsion technologies. The platform helps accelerate development by integrating production-ready hardware and software building blocks on a scalable architecture. The Modular Drone Platform reduces system integration complexity, engineering effort, size, weight, and power requirements while supporting rapid prototyping and deployment of autonomous drone applications.
