

Differential, Compensated Pressure Sensor (0 to 40 kPa)

MPX230xDT1

Last Updated: Mar 2, 2023

The MPX230xDT1 offers a cost-effective, high-volume miniature pressure sensor package targeting medical applications.

- Provides an ideal solution for sub-module components or disposable units
- Uses our sensor die with its piezoresistive technology along with the added feature of on-chip, thin-film temperature compensation and calibration
- Enables flexibility and cost savings in system designs
