

Differential, Compensated Pressure Sensor (0 to 10 kPa)

MPXC201xDT1

Last Updated: Dec 17, 2024

The MPXC201xDT1 provides a cost-effective, high-volume miniature pressure sensor package targeting medical applications.

- Provides an ideal solution for sub-module components or disposable units
- Uses our sensor die with its piezoresistive technology along with the added feature of on-chip, thin-film temperature compensation and calibration
- Enables flexibility and cost savings in system designs
