

Differential and Gauge Compensated Pressure Sensor (0 to 50 kPa)

MPXx2050

Last Updated: Oct 25, 2023

The MPXx2050 series delivers silicon piezoresistive pressure sensors for use in a wide selection of medical and industrial devices.

- Provides a highly accurate and linear voltage output directly proportional to the applied pressure.
- Includes a single monolithic silicon diaphragm with the strain gauge and a thin-film resistor network integrated on-chip
- Offers a laser-trimmed chip for precise span, offset calibration and temperature compensation

MPXX2050 Block Diagram

PACKAGING ORDERING INFORMATION		
Device Type	Packing Options	Case
MPX2050D	Differential	344
MPX2050DP	Differential, Dual Port	344C
MPX2050GP	Gauge	344B
MPX2050GSX	Gauge Axial PC Mount	344F
