

# Differential, Gauge and Absolute Pressure Sensor (0 to 200 kPa)

## MPXx2202

Last Updated: Mar 1, 2023

The MPXx2202 family (MPX2202 series, MPXV2202G series, MPXM2202 series) of pressure sensors provides silicon piezoresistive devices for medical and industrial applications.

- Offers a highly accurate and linear voltage output directly proportional to the applied pressure.
- Includes a single monolithic silicon diaphragm with the strain gauge and a thin-film resistor network integrated on-chip
- Delivers a laser-trimmed chip for precise span, offset calibration and temperature compensation
