

# **NTAG213F, NTAG216F: NFC Forum Type 2 Tag Compliant IC with 144/888 B User Memory and Field Detection**

## **NTAG213F\_216F**

Last Updated: Apr 11, 2024

The NTAG213F and NTAG216F are NFC Forum Type 2 Tag compliant products with a field detection pin and offer a large range of User memory (144 bytes for NTAG213F and 888 bytes for NTAG216F). Besides, the family offers innovative functionalities like the configuration of a field detection, the SLEEP mode, the FAST\_READ command, and a configurable password protection. These capabilities fit perfectly for applications in electronics, i.e. connection handover, Bluetooth® simple pairing, Wi-Fi protected set-ups, device authentication or gaming.
